College, Cuttack-69.33

MATRICULATION 2013

Odisha Board, Saraswati
Vidyamandir, Angul- 86.4

Profile

Web Developer specializing in front end development. Experienced with all stages of the development cycle for dynamic web projects. Well-versed in numerous programming languages including JAVA, PHP OOP, CSS, Apache MySQL. Also, I have basic knowledge of software development in Android and worked with Firebase as a database. Strong background in project management and customer relations. Now I am learning swift programming for IOS and Mac application.

Projects

COVID-19 Emergency[March 2020]

- Description: Android application for an emergency alert for the global pandemic COVID-19. It includes a global chart for realtime data of the spread and specific news around the locality. You can contact the helpline number provided by the government if you have any symptoms or any other queries. The app also includes precaution measures that are prescribed by the WHO.
- Detail: Used fire-base as a database for storing the contact number of government helpline and API integration for display the live chart for the spread of the virus.
- Outcome: Android app development, Implantation of fire-base in Android application.

Travel Companion[November 2019]

- Description: Android application for students developed in JAVA language to find hostels, restaurants, activities happening around your current city.
- Detail: Used fire-base as a database and used map links for directions. Also, integrate Google sign-in option for verification.
- Outcome: Android app development, Implantation of fire-base in Android application.

Student Shop[April 2019]

- Description: A PHP based e-commerce website developed for students to list their products which they don't use frequently for rent within their hostels like DSLR, kettle, iron, etc for exchange of money or other products.
- Detail: Used PHP for back end and styled using CSS. Apache MySQL is used as a database for storing information about student id, rented products and verified using roll numbers.
- Outcome: Brief knowledge about PHP and CSS

Easy Library[March 2019]

- Description: A PHP based website developed for inserting books and search books for availability.
- Detail: Used PHP for back end and styled using CSS. Apache MySQL is used as a database for storing information about books.
- Outcome: Brief knowledge about PHP and CSS

Skill Highlights

- Project management
- Web Designing
- Software Development
- Creative design
- Innovative
- Problem Solving

Certifications

1. Workshop on Alexa Skill development on 25th Aug 2019.
Organized by Amazon Alexa Developer community of LPU. Published Alexa Skills for rock paper scissor, Mangal yaan facts, Food facts.
2. Workshop on Microsoft road to code on 20th Aug 2019 for a better understanding of languages and tools used in industries.
3. Participated in India First Botathone for university students on Robotic Process Automation on 7th Nov 2019 and submitted three bots.
